Schwinn® Fitness

Did you know...

- ❖ According to fitness author Wayne Westcott, Ph.D. building muscle speeds your metabolism. As you age, your metabolism slows, strength training reverses that process.
- ❖ Regular exercise increases your resting metabolic rate; which means you could be burning calories at an increased rate for as long as 48 hours after your fitness routine.
– The Women's Complete Health Book
- ❖ Studies show that too little shut-eye leads to an increased risk for heart disease, diabetes and even weight gain.
– Fitness magazine, December 2003
- ❖ According to Jeffrey Woods, Ph.D., exercise metabolizes immune cells and may protect your body against impending threats such as a virus.
- ❖ New medical research conducted at the Washington University School of Medicine, the University of Hawaii and the University of Helsinki proves that modest cardiovascular activity can increase your chance of living longer by as much as 44%.

Welcome to a new chapter in home fitness...

Imagine how great you'll feel – and how fantastic you'll look – if you choose the road to fitness! Nautilus, a complete health and fitness company, brings that goal within reach. We've been providing exercise equipment that withstands rigorous activity and provides astounding results to health clubs and gyms across the country for over 30 years. Now we're bringing them to you.

I'm pleased to present the premier issue of the Nautilus Home Health & Fitness Catalog. It embodies our commitment to helping people achieve a fit and healthy lifestyle through exercise, rest and nutrition. We've assembled our brands **Nautilus®**, **Bowflex®**, **Schwinn®**, **Stairmaster®** and **TreadClimber®** into one complete home fitness resource.

Weight control and fitness are increasingly serious issues in this country, and Nautilus provides you with serious solutions. Whether you want to tone your muscles, jump-start your metabolism, lose excess weight or achieve the look of overall vitality and youthfulness – we have the products you need to reach your ultimate fitness goals!

Gregg Hammann
Chief Executive Officer

From **Cardio** to **Toning & Stretching**,
Strength Training to **Rest & Relaxation**,
 we have what you need to get into your best shape ever.

C A R D I O **PAGES 4-17**

Cardio Equipment and Accessories
 Check out our 'guaranteed to succeed' line of Nautilus cardio equipment—for the first time ever available for home use. They are fun, easy-to-use, and effective – a motivating combination! Maximize your fitness potential with our treadmills, indoor bikes, elliptical trainers and stairclimbers. Try our ultimate solution for losing weight and getting in shape, the revolutionary TreadClimber!

S T R E N G T H **PAGES 30-47**

Strength Training
 Sculpt your muscles, lose weight, look great and feel fabulous with our comprehensive collection of gym equipment, free weights and accessories – all designed to give you the physique you desire. Building muscle mass burns more calories and increases your metabolism even when you're resting – and we have what you need to strengthen and sculpt your way to physical perfection!

N U T R I T I O N **PAGES 18-29**

Nutrition, Stretching and Toning
 To get the most from your workouts, provide your body with what it needs to nourish itself from the inside, with nutritional supplements that build lean bodies and replenish your strength and stamina! Relax, stretch and breathe your way to improved flexibility with our yoga, Pilates, and balance collection. We offer simple solutions to lose weight and get fit.

R E C O V E R Y **PAGES 48-55**

Recovery, Rest and Relaxation
 Proper rest is just as vital to your ongoing health and fitness as are workouts – so relax... after your hectic day, you deserve it! We scientifically studied the body at rest, and created a revolutionary sleep system, designed by fitness experts for athletes of all levels. You'll feel energetic, look fantastic, and be able to work out harder after catching some zzzz's on our Nautilus Sleep Systems.

Experience the new revolutionary technology of TreadClimber®.

Welcome to the next generation of fitness.

The Nautilus® TreadClimber® burns 2-1/2 times more calories.

Nautilus® brings you the perfect calorie-killing machine, designed to get you into your fat-burning zone fast and keep you there, for total fitness and the great-looking body you want. Revolutionary TreadClimber's gradual hill-climbing motion means you'll work more of your major muscle groups, so you get faster results with less perceived effort. In fact, an Adelphi University study proved that walking on TreadClimber burns 2-1/2 times more calories than the same speed on a treadmill.

Get the Body You Want in Half the Time.™

There's never been a fitness breakthrough like this. Nautilus combined the science of walking and climbing into one revolutionary workout machine that exercises large muscle groups in two different ways – so you get into your fat-burning zone fast! This is one fast, effective, calorie-burning fitness routine. The unique, dual motion of the TreadClimber allows you to experience this practically effortless and invigorating exercise in the privacy of your own home.

Easy to use — for faster results!

30 minutes a day, 3 times a week is all it takes to get a lean, beautiful body. Guaranteed.* TreadClimber's state-of-the-art design and technology adjust easily for any fitness level. Whatever your health goals, the Nautilus TreadClimber fitness equipment will get you there faster and easier.

TC5000™

Our most popular gym-quality machine keeps you in the zone!

- 12 Intensity Settings for a custom workout
- Wireless Heart Rate Monitor built-in
- Speed from 0.7 to 4.0 mph
- 8 electronic functions

The powerful TreadClimber® TC5000 is our premium cardio fitness solution. Easy-to-read electronic functions monitor speed, time, distance, climb elevation, calories burned and more, while the Integrated Wireless Heart Rate Monitor keeps you in your fat-burning zone. Convenient Quick Start remembers your workout settings. Includes ergonomic console with book holder, two oversized drink holders, plus space for a TV remote and personal stereo. Compact size uses less space than a treadmill or bike. Comes with our best warranty: 5-year motor and 3-year electronic.

Get in shape in half the time

TC3000™

**Power and performance
in a mid-level value!**

- 6 electronic functions
- 12 Intensity Settings for your ideal workout
- Speed from 0.7 to 4.0 mph

Step up to a revolutionary workout that's as easy as walking, yet still burns 2-1/2 times more calories – so you'll look and feel better *faster*! The feature-packed TreadClimber TC3000 combines six easy-to-read electronic functions to give you the motivation and feedback you need to succeed. Monitor speed, time, distance and total steps, as well as calories burned and calories per minute. Includes ergonomic console with book/magazine holder, two oversized drink holders, plus space to tuck your TV remote control and personal stereo. Compact size and attractive design fits in any room. Full 2-year warranty on electronics; extended 3-year warranty on motor. Get the TC3000 and get moving – you'll reach your fitness goals in record time!

AC024 \$1,799 (\$199)

Why is the Nautilus TreadClimber® so much more effective than any other fitness machine?

The TreadClimber® fitness equipment's unique, dual motion combines stepping and walking at the same time. This is the secret to TreadClimber's amazing success. It simultaneously works large groups of muscles – including legs, back, abs and arms – in several different ways. All this muscle movement gets your body into its ideal calorie-burning zone fast. And that means you get more results, in less time, than with any other exercise machine.

Burns more fat than a treadmill.

In a recent university study, TreadClimber beat an ordinary treadmill with a whopping 2-1/2 times more calories burned. Instead of a single, flat walking surface, TreadClimber's dual platforms get you to your fat-burning zone with less effort and less impact on your joints.

Easier on your body than a stair-stepper.

The Nautilus TreadClimber uses a gradual hill-climbing movement that is much less grueling than the straight up-and-down exertion required by a stair-stepper. And yet TreadClimber *burns more calories* and works more muscles in a workout of the same duration.

Allows a natural range of motion.

Where an elliptical trainer locks users' feet, legs and knees into one strict path, TreadClimber allows a natural range of motion that adapts to your unique stride. The result is a safe and extremely low-impact workout for any age or fitness level.

- 12 Intensity Settings to tailor your workout
- Speed from 0.5 to 3.8 mph

You can afford to change your life for the better! Get a full, fat-blasting TreadClimber workout in a slimmed-down machine that's an incredible value. The TC1000 uses the very same, unique, calorie-burning movement. The convenient, easy-to-see electronic console gives you at-a-glance readouts for time, distance traveled and speed – the essential information you need to track your workout progress and keep your motivation up-up-up! Dual speed controls allow for right- or left-handed operation. Reset switch clears all displays with one touch. Includes safety key with automatic shut off. Full 1-year warranty on motor and electronics. With this great value, getting started on the road to fitness couldn't be easier!

Nautilus®

Increase Your Energy and Burn Fat With Easy Cardio Workouts

Ready to look better, feel great and reach your weight loss goals? You can do it! The key to losing weight is simple: burn more calories than you consume. Long-term weight loss is as much about exercise as it is about diet. Adding a cardio workout to your weight loss routine means you burn more calories and shed pounds faster.

With a little resolve, fat will dissolve!

Cardio fitness is your key to a supercharged-energy level, an increased fat-burning metabolism and a healthy, happy heart. And it's so easy. Just step onto your in-home cardio workout machine and 20 minutes later, you're done. Three simple sessions per week do the trick, and it's so much fun that you'll effortlessly weave your new routine into your busy life. Your cardio workouts will become the best part of your day.

The key to cardio fitness.

The key to making a commitment to cardio fitness and sticking with it is making it fun and convenient. That's where a home cardio machine really makes a difference. Pick the right equipment for you and place it in a location within your home that gets you motivated. Whether it's near the TV in the family room, in the garage as a getaway from the hustle and bustle of daily life or as part of a complete home gym. You'll be amazed at how quickly your body responds to a cardio workout and how much fun you have, and you will be delighted with the positive changes that take place in your life.

fitness easy and fun.

NR 2000 Recumbent Bike

Schwinn® Evolution® SR

This premier indoor cycle delivers high-cardio workouts with ease.

- Futuristic, one-piece "monocoque" frame is wobble-free
- Realistic "road feel" via a 38 lb flywheel and direct drive gears
- Patented Smart Release™ mechanism allows you to "coast" in addition to all the benefits of fixed gears, specially structured for the ultimate indoor cycling experience

Schwinn's ultimate indoor bike works so well – and looks so cool – you'll want to ride forever! Climb on and experience body-sculpting, high-cardio cycling in the privacy of your own home! Your workout will feel just like you're in your favorite cycle class – but you get to ride when it is most convenient for you! The high-inertia drive system has a perimeter-weighted flywheel and direct drive gearing for the realistic road feel. Smart Release lets you stop pedaling at any time, and the emergency brake quickly stops the flywheel. Customize your comfort with the fully adjustable seat and handlebars. Multiple water bottle holders accommodate 1-liter bottles of any shape. Easy-roll wheels for post-workout storage. Worry-free warranty: 30-year frame, 3-year parts. 38-1/2"L x 24-1/2"W x 47-1/2"H.

Train in Your Zone to Reach Your Fitness Goals

Whether you want to lose weight and get toned, or increase your strength and endurance, the best way to ensure results is through Targeted Zone Training. Determine your heart rate "zone" and combine your fitness training with a healthy diet for scientifically proven method of success.

HEALTHY HEART ZONE — 50-60% of maximum heart rate Reduces fat, blood pressure and cholesterol and strengthens joints
FAT-BURNING ZONE — 60-70% of maximum heart rate Burns calories and zaps the fat equally all over your frame!
AEROBIC ZONE — 70-80% of maximum heart rate Increases blood flow, lung capacity, size and strength of your heart
ANAEROBIC ZONE — 80-90% of maximum heart rate Increases endurance and burns more calories than the other zones
RED ZONE — 90-100% of maximum heart rate This zone should only be utilized by athletes in peak condition

The fat-burning zone: your formula for weight loss success.

Keeping your heart rate at 60-70% of its maximum during your workouts zaps calories and gets rid of fat fast. For optimal weight loss, the intensity of your cardio-training should not exceed your fat-burning zone. At higher intensities, your body stops using fat as its energy source - a heart rate monitor is key for efficient workouts.

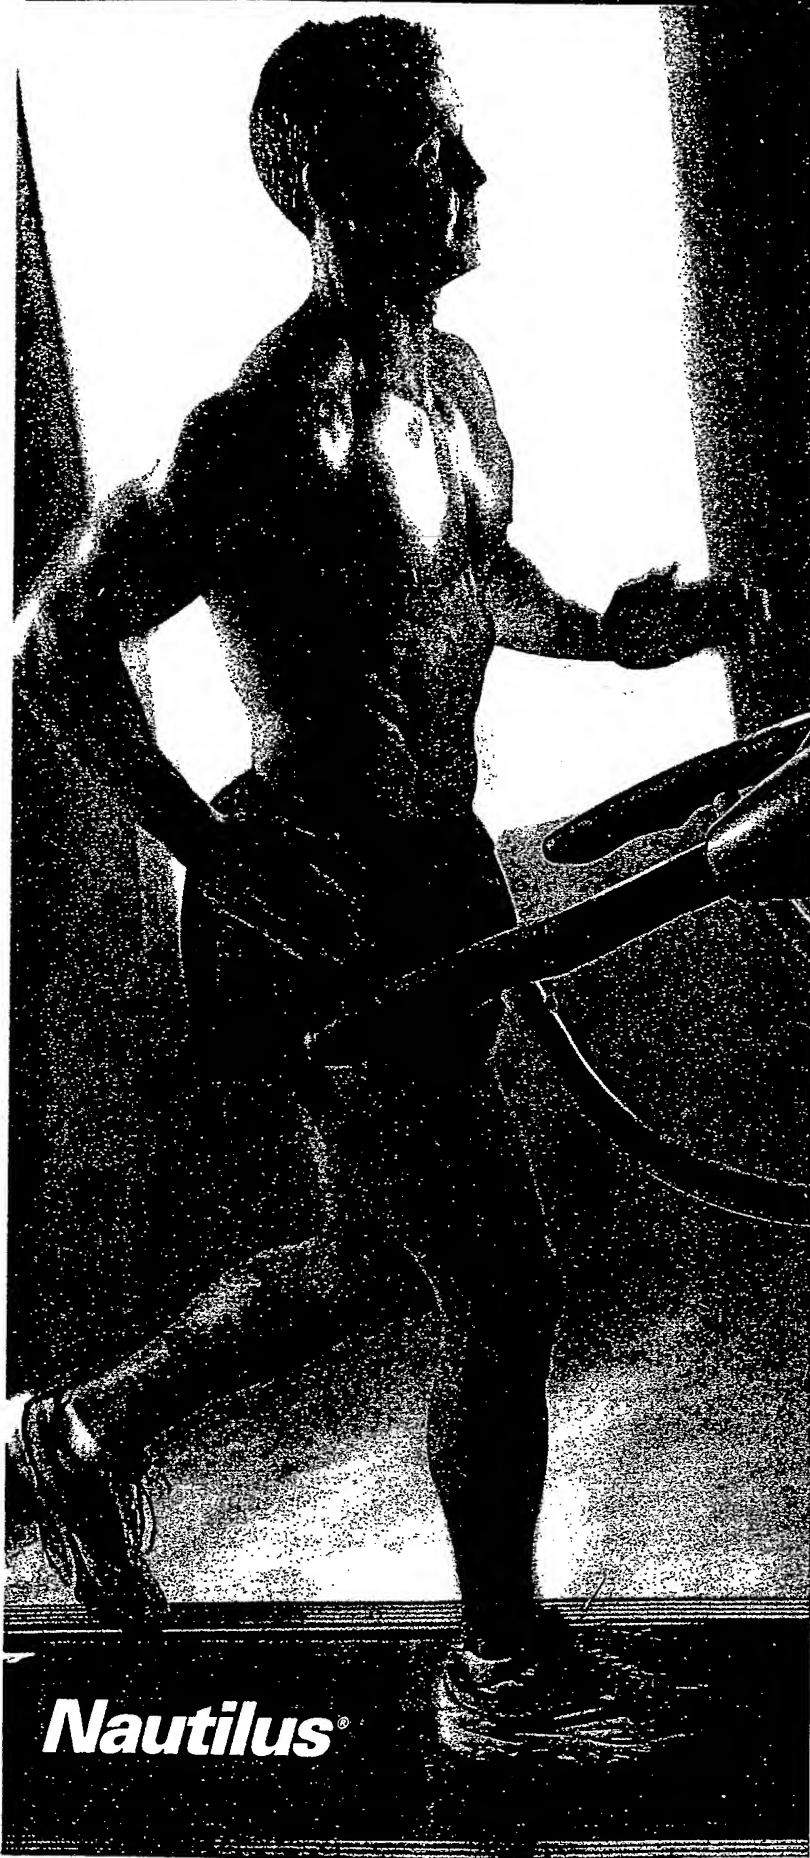

How to determine your maximum heart rate

You're on your way to the best shape of your life! To stay within your zone, here's how to calculate your maximum heart rate.*

<u>MEN</u>	<u>WOMEN</u>
210	210
- 1/2 your age	- 1/2 your age
- 5% of your body weight	- 1% of your body weight
+ 4	+ 0
Equals your maximum	Equals your maximum

For example, a 44-year old woman weighing 130 pounds, would be 210 minus 22 (50% of 44) minus 1.3 (1% of her body weight) + 0 (women). Maximum heart rate: 187 beats per minute.

* To most accurately determine your maximum heart rate, consult with a fitness or medical professional.

Nautilus®

Run or walk your way to
a better body — easily at home.

Nautilus® treadmills deliver a lifetime of fitness.

Welded steel frames mean high-endurance.

The heart of any treadmill is its frame. The Nautilus® NTR is constructed of welded 12-gauge steel, making these treadmills the sturdiest in their class. With a total treadmill weight of over 300 lbs., these machines are designed to perform smoothly and flawlessly for many years, even with the roughest of punishment. Lighter, bolted frames flex and bend while in use, resulting in a shorter lifespan and unwanted noise. We back up our treadmill's welded steel frame with a 30-year warranty.

ReACT™ absorption control technology.

Our patented running surface provides a progressive cushioning system. The ReACT™ technology works through a unique series of impact-absorbing elastomer cushions of variable height and flexibility. Each ReACT™ cushion is custom tailored to a specific size and softness to automatically adjust and provide the perfect walking or running surface*. The ReACT™ running surface is then rigidly mounted to the back end of the frame providing you with a solid, stable surface to push off from. All NTR treadmills provide an extra large 20" x 57" walking surface for comfort and security.

* In a recent study conducted at the Boulder Center for Sports Medicine, the ReACT™ system reduced up to 15% of impact for user's at running speeds and up to 20% at normal walking speeds. This is significant as runners typically impact a treadmill at 5 to 6 times their body weight — meaning ReACT™'s technologically advanced deck can reduce impact force by over 100 lbs!

Large, high horsepower motors.

Nautilus® treadmills use large 2.7 and 3.0 HP continual-duty drive motors — which gives us the confidence to back them with a 30-year warranty. Our motors are made in the USA and are designed for smooth, quiet operation with high-torque and low heat output, which means a longer life for the user to enjoy. This motor incorporates a high-inertia, cased flywheel, precision balanced to every motor shaft, insuring a smooth treadmill with far less variation in speed than other comparable systems.

All Nautilus® treadmills feature a 30-year motor and frame warranty

Each Nautilus NTR Treadmill begins with the same high-performance frame. Choose the model with the additional features that are right for your workout and personal fitness goals. All Nautilus NTR treadmills are 75"L x 30"W x 56"H.

NTR 800 Treadmill

No Need for Speed Forget the old rules!

Great news: you don't have to run fast to be a real runner! In this beginner's guide to the joys of running, *Runner's World* columnist John "The Penguin" Bingham shares a four-part, 12-week program that takes you "from sofa to starting line." Extremely motivating for experienced runners, too, especially you perennial "back-of-the-packers."

Nautilus® elliptical training: full-body, low impact exercise with *cordless* convenience.

Nautilus® NE 3000 Elliptical Trainer

Your elliptical workout deserves *the very best!*

- Self-generating electromagnetic resistance: no cords!
- 6 preset programs, 2 custom programs, HRC and fitness test
- Patented 4-bar linkage on foot pedals provides a smooth, natural movement

Make no compromises on the road to your better body! Elliptical versatility means you can focus on your lower body, or work your upper body, too. The commercial-grade NE 3000 – our very best elliptical trainer – has a self-generating electromagnetic resistance system, so you provide the power! No cords mean you can place it anywhere. Choose from six preset and two custom programs. Heart Rate Control (HRC) technology lets you input your target heart rate, then watch as the machine automatically adjusts the workout to your fitness level. Advanced console has an LED computer with alphanumeric display panel and high-definition display for time, speed, average speed, RPM, distance, calories, heart rate, level, watts and METs (metabolic equivalent, or intensity of your exercise, based on your weight and activity level).

Convenient fingertip controls mean no slowing down for program changes.

Warranty: 30-year frame/3-year parts and electronics. 75"L x 25"W x 67"H (note: 87"L needed for operation).

Fitness begins with the right nutrition.

The Secret to Success

Do you want supercharged energy, sexy arms, abs, legs and glutes and an improved outlook on life? Add good nutrition to your cardio workouts and strength training, and you'll reach your fitness goals more quickly, whether you want to lose weight, maintain your current weight or add lean muscle mass.

Reach your fitness goals fast.

If you want real results — shaving off inches or dropping pounds — don't make the mistake of simply cutting calories! You'll deplete your energy resources too quickly and will cheat yourself of the healthy energy your body needs for fun, safe and successful workouts. Instead, boost your energy level and enhance your cardio program with nutritional resources that fuel your body.

Think nutritional products might not work? Think again! Pro athletes have used Champion Nutrition for years. Now "ordinary" athletes like you can learn what they know: when you add these quality products to your diet program as a meal replacement, meal enhancer or energy-boosting snack, you'll lose weight and firm up faster than you ever thought possible.

Champion Nutrition™ Met Max® Go beyond your limits!

If your goal is to become stronger, faster and healthier than the average Joe — if you're an elite athlete (or just work out like one) — Met Max is for you. It's Champion's ultimate supplement for

building muscle, with everything your body needs to function at optimal efficiency and recover fast. 20 servings. Specify chocolate or vanilla.

AT243 \$59.95 ♦

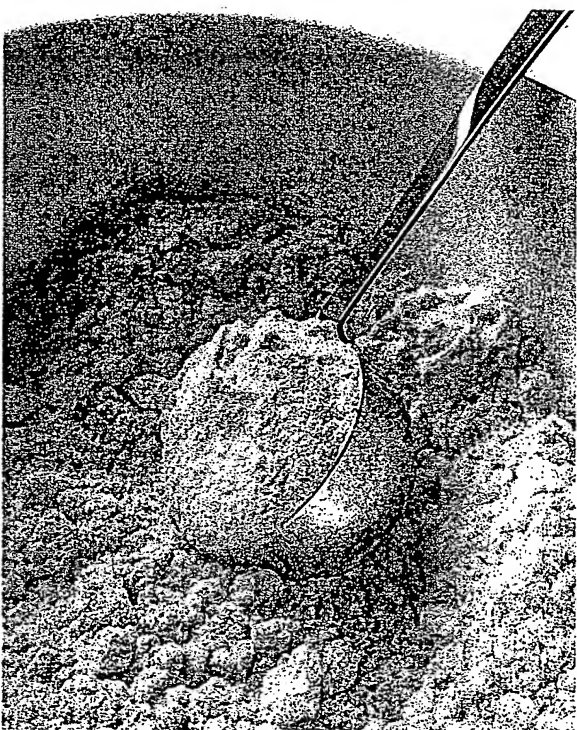

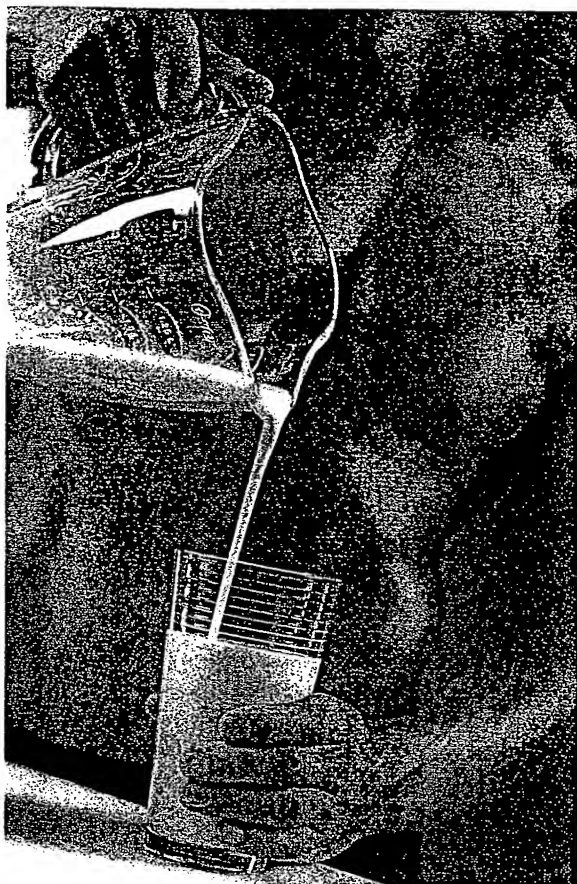

Champion Nutrition™ Pro-Score 100 Add protein, not fat or carbs.

A little help goes a long way. One scoop of Pro-Score has 17 grams of easily digestible protein and just one gram of fat and carbs. That makes it ideal for weight-loss, endurance building and

workout recovery. 22 servings. Specify chocolate, vanilla or natural.

AT244 \$44.95 ♦

Champion Nutrition™ Pure Whey Protein Stack

Whey is gaining popularity as a powerful protein supplement that lets you burn off maximum fat while maintaining or building muscle! Made from 100% pure whey with added flavor but only two grams of fat. Mixes smoothly with water. 71 servings. Specify banana scream, chocolate, cocoa mochaccino, strawberry or vanilla.

AT245 \$39.95 ♦

Power Glutamine

Recent research has confirmed that glutamine is essential for protein synthesis, complete recovery and immune function.

Power Glutamine is virtually tasteless and mixes quickly into protein drinks or other beverages. 90 servings per container.

AT212 \$39.95 ♦

HeavyWeight Gainer 900

One low-fat HeavyWeight Gainer shake provides 900 calories that help you gain muscle. It also helps prevent stored energy in muscles from being broken down during the day, so you have more energy during intense workouts. Use as a meal replacement to lose fat even faster. Packed with protein, too. 21 servings. Specify chocolate, vanilla or strawberry.

AT246 \$44.95 ♦

Champion Nutrition™ Met Endurance

Burn fat while maintaining a consistent energy level – not too high and not too low. Convenient, refreshing drink has a combination of carbs, protein and herbs to help you regain mental alertness or complete your workout without feeling tired. 20 servings. Specify mountain razzberry or orange smoothy.

AT247 \$34.95 ♦

Champion Nutrition™ Muscle Nitro

Increase your stamina with the supplement endurance athletes love! Muscle Nitro actually improves your muscles' ability to take oxygen from blood by 11%, so your muscles recover faster, soreness decreases and injuries are less likely. 120 capsules.

AT211 \$19.95 ♦

Diet is Not Enough. Understand Your Total Body for Weight Loss Success!

At Nautilus, experience has taught us that inside every out-of-shape woman, there hides a trim, well-proportioned body. A true commitment to working out, eating right and getting fit can release the inner you – lean, fit, healthy and naturally beautiful.

The human body was designed to store fat, to survive the lean times when food was scarce. Fortunately, today we have access to food everywhere we look. Too bad our genes haven't caught up to that fact! When we diet, we can actually slow our metabolism. Eating too few calories can send the body into survival-mode, storing even more fat – it's an endless cycle.

You can fight genetics!

There's a lot you can do to fight the body's natural tendency to store fat: Exercise, preferably in the morning, increases the metabolism while simultaneously lowering appetite. So your body burns more of the calories you consume – and you feel less hungry. In addition, strong muscles burn more calories. And best of all, moderate exercise causes your body to release endorphins, so you feel fantastic – and that's one of the best weight-loss motivators we've ever seen!

Seca Fitness Scale

Medical quality scale is more accurate than most.

A good scale is a vital part of every fitness program. The sturdy Seca Medical Scale features a large, easy-to-read dial and bright blue textured mat for slip-free use. Durable steel construction will last for years. 3-year warranty.

AT131 \$129.95

Tanita Body Fat Monitor/Scale

Track your body fat as well as your weight.

Precision scale digitally displays weight and body fat and tells you when you're in the healthy range for your age and gender. It even estimates daily calorie needs. Calibrated for different fitness levels, including "Athlete Mode" for those who work out regularly. Stores data for up to four people.

AT171 \$99.95

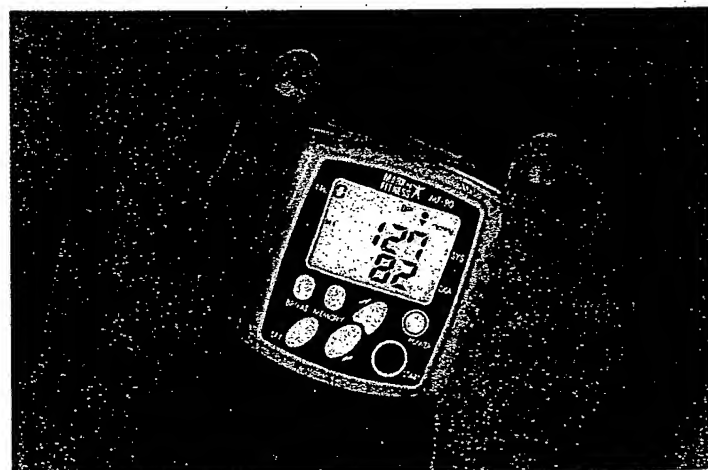

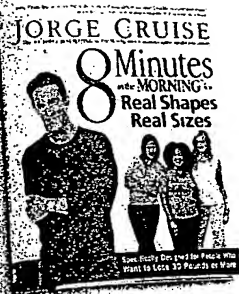

Wrist Body Fat/Blood Pressure Monitor

Get an instant picture of your BP and body fat.

Keep track of your overall health with one convenient tool. In seconds, this convenient monitor gives accurate readings of body fat and blood pressure, so you can adjust your workout or diet as needed. Stores profiles for up to four people.

AT103 \$129

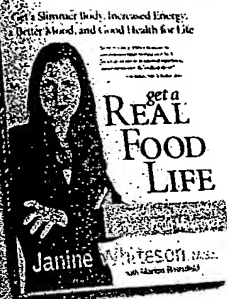

8 Minutes in the Morning Fitness for real shapes, real sizes.

Improve Your Fitness, Strength and Flexibility Through Yoga

What's all the buzz about yoga? It's on TV, it's in the movies, your friends are talking about it... It's been around for 5,000 years – why the current resurgence?

It's simple: for anyone (and we mean anyone) looking to improve fitness, yoga can make a real difference. Pro athletes, power lifters, weekend warriors, new moms and reformed couch potatoes – everyone can get the same great results, including relaxation, increased flexibility and strength, improved concentration and immune system function, better posture and circulation, and more.

What, exactly, is yoga? At its most simple, yoga consists of movements, body positions and breathing techniques – from very simple to more challenging, that act like an inner body massage. Try it just a few times – our Body Wisdom Yoga DVDs are a great place to start. You'll feel better – and you'll feel the difference in your workouts – almost immediately.

Target, tighten and tone: improve flexibility and endurance.

Women's Bra Top and Shorts

Sports bra and top in one.

Pilates: Body/Mind Makeover

Would you like to improve your flexibility and strength, without building bulk or enduring exercise programs that leave you depleted? Pilates can do this for you! Pilates is a gentle, refreshing and energizing workout system that dramatically transforms the way your body looks and feels while it promotes physical harmony and balance. It is a body/mind makeover that creates sculpted physique and promotes a positive, confident and rested state of mind.

How does Pilates work?

Pilates was developed in the 1920s by German fitness guru Joseph H. Pilates. He designed more than 500 specific exercises for patients recovering from injury and illness. His method develops strength through resistance utilizing key pieces of apparatus, focusing on conditioning your body's core strength areas — abs, lower back and glutes. It stretches and strengthens muscles to increase elasticity and joint mobility, and because there are no fast, jarring movements involved, it's great for people of all ages and physical abilities. Instead of performing many repetitions of each exercise, Pilates utilizes fewer, more precise movements that allow you to relax but still burn calories while firming up. Best of all, Pilates is quick, easy and convenient to do in your own home.

Activewear that moves with you and keeps you cool.

Dri-release™ T-Shirt

Not your average t-shirt.

Stock-up on this workout favorite for men or women! Dri-release™ microfiber fabric wicks away moisture, so you stay cool no matter how much you sweat. Take care of your body on the road to fitness.

Elasto-Gel Hot/Cold Wraps

Soothe aching muscles fast.

Versatile temperature therapy wraps offer hot or cold therapy right where you need it. Don't mess around with ice cubes or heating pads.

Elasto-Gel is much easier to use – and much more efficient. Just one Elasto-Gel wrap does the trick, whether your injury requires heat or cold. Made of thick, contoured gel covered with a soft, four-way stretch material, simply place the wrap in the freezer (cold therapy), oven (dry heat) or microwave (moist heat). Elasto-Gel gives you 20-40 minutes of hot or cold to penetrate muscles for fast – and long-lasting – relief.

Gain Size and Strength Program

(For nutritional information, see: Creatine Xtreme, Metabolol II, and Met Max)

Here's a complete supplement program to enhance muscle size, strength and power. This best-of-the-best combo includes Met Max shakes (56 servings), Grape Creatine Xtreme dietary supplement drinks (20 servings) and Chocolate Metabolol II nutritional shakes (15 servings) – plus a handy shaker bottle!

HeavyWeight Gainer 900

One low-fat HeavyWeight Gainer shake provides 900 calories that help you gain muscle. It also helps prevent stored energy in muscles from being broken down during the day, so you have more energy during intense workouts. Use as a meal-replacement to lose fat even faster. Packed with protein, too.

Available flavors: Chocolate Shake, Strawberry Shake or Vanilla Shake. 1500g (3.3 lb.) container. 10 servings.

4 Easy Ways to Order

1. Phone: 1-800-436-9892

Your personal fitness consultant will help you choose the right equipment to meet your fitness goals.

2. Internet: www.nautiluscatalog.com

We feature secure ordering.

3. Mail:

The Nautilus Group
1400 NE 136th Ave.
Vancouver, WA 98684

Mail the order form in your catalog along with credit card information, check, money order, or gift certificate.

4. FAX: 1-360-694-7755

Use your order form with credit card information.

Payment

Charge to your Bowflex® or Nautilus® charge account (see below for details). We also welcome VISA, MasterCard, Discover/NOVUS and American Express cards or check or money orders. COD not accepted.

Customer Service

Representatives are available Monday to Friday from 8 AM to Midnight EST, Saturday and Sunday 8 AM to 7 PM EST to assist you with any issues relating to your existing order. Call 1-800-436-9892. Some of the products in this catalog will require assembly. Most equipment is designed to be assembled by a person with average mechanical ability.

If you need advice regarding assembly of a product that is not indicated as In-Home Delivery please call customer service at 1-800-436-9892.

Shipping and Handling

Because most of our products are heavy-duty professional quality fitness equipment, our cost to ship them is higher than other items. The shipping and handling charge for these products, as well as some others, are shown in parentheses next to the price. For all other items, please refer to the Standard Shipping Table on the order form. These charges apply to delivery within the 48 contiguous United States. Call for charges for delivery to Alaska, Hawaii or international locations. Your order will be processed in 1 business day and will be sent via the most efficient shipping method. Most orders deliver in approximately 6-10 business days. Please provide a street address for delivery along with a daytime phone number. Most items are shipped UPS ground; however, certain items are shipped by motor freight carrier (truck) or directly from the factory. Your consultant will advise you of shipping methods and times when you place your order.

If a motor freight carrier delivers an item, the driver will unload it. Items difficult to move from the truck

to your home may require assistance that you will need to provide, unless this item is being delivered via In-Home Delivery.

Items ordered together might not ship at the same time; your credit card or account will be billed only for what is shipped.

In-Home Delivery

Most orders are delivered in 12-17 business days. Shipping charges followed by the  symbol are delivered by our In-Home Delivery service. This service includes shipping, handling and installation by an authorized Nautilus® Health and Fitness Group product distributor and/or service provider. The product is brought into your home, unpacked and assembled. A delivery service representative will contact you to arrange an appointment.

Satisfaction Guaranteed

Try your Nautilus® products. If you're not 100% satisfied – for any reason – simply contact our customer service department within the time period indicated below at 1-800-436-9892 for a return authorization number. Then return your purchase, in its original condition and packaging, and you'll receive a full refund, less shipping and handling. Items must be shipped no later than 2 weeks after your return authorization is given.

Satisfaction Period

- Bowflex® 6 weeks
- Nautilus® Sleep Systems 90 nights
- All other products 30 days

Apply for the Nautilus Direct Credit Card Today

• ZERO DOWN FINANCING AVAILABLE

Nautilus® products are easy to own, thanks to Zero Down Financing and LOW monthly payments available on your Nautilus® Direct credit cards. Furnish your home gym for less than some monthly athletic club dues! And no initiation fee! Call 1-800-436-9892 today for details.

• 90-DAYS SAME AS CASH

To qualify for 90-days same as cash, you must apply for a Nautilus® Direct credit card Account, by doing so you are applying for a revolving credit card from Household Bank (SB), N.A. If the balance on your purchase is paid in full before the 90-day promotional

period expires and your Account is kept current, accrued Finance Charges will not be imposed on these purchases. If the balance on these purchases is not paid in full, Finance Charges will be assessed from the purchase date at the Standard Rate of 21.8% APR. For Accounts not kept current, the Default Rate of 25.8% APR will be applied to all balances on your Account. Minimum Finance Charge \$1.00. Certain rules apply to the allocation of payment and Finance Charges on your promotional purchase if you make more than one purchase on your Nautilus Direct card. Call 1-888-367-4310 or review your cardholder agreement for information.

Medisana® Wrist Blood Pressure Monitor

Fast, accurate blood pressure readings – for two!

Easy Wrist Blood Pressure Monitor is a convenient way to monitor your health anytime. Simply slip the cuff-style device over your wrist, and press the button. Big, easy-to-read backlit display shows your diastolic and systolic blood pressure measurements and pulse rate. Two-channel memory stores up to 200 measurements (100 per channel) with a time and date stamp, so you can keep a history of your blood pressure for your own records or to show your doctor. Automatic shut-off. Comes with a carrying case for workout bag or travel. Uses two AAA batteries (not included). 5-year warranty.

Fully adjustable range of motion, seat and back positions allow for safe operation and an exacting fit on over 30 different exercises. Individual low pulley station with fixed footplate lets you target muscle groups and perform rowing and other exercises. Easily adjustable for a wide range of users and fitness levels. 67"L x 46"W x 83"H.

AS040 \$1,999 (\$449) 

Strength Training is the Key to a Balanced Workout

Feel better and look better — nothing is more satisfying than the feeling you get after a good workout. Strength training is as important to losing weight and getting in shape as cardio exercise.

Strength training is exercising with resistance, to build muscle strength. It's like weight lifting, but it's a lot easier than you may think. It doesn't take a lot of weight resistance to shape and sculpt beautiful lean muscles. And it's muscles that give you energy and strength.

Stay fit and in shape as you get older by making strength training a consistent part of your life. Physical activity is the key to maintaining your youthful energy. Strength training also ensures you maintain a healthy weight, and have the strong resilient muscles needed to participate in aerobic activities, outdoor recreation and sports.

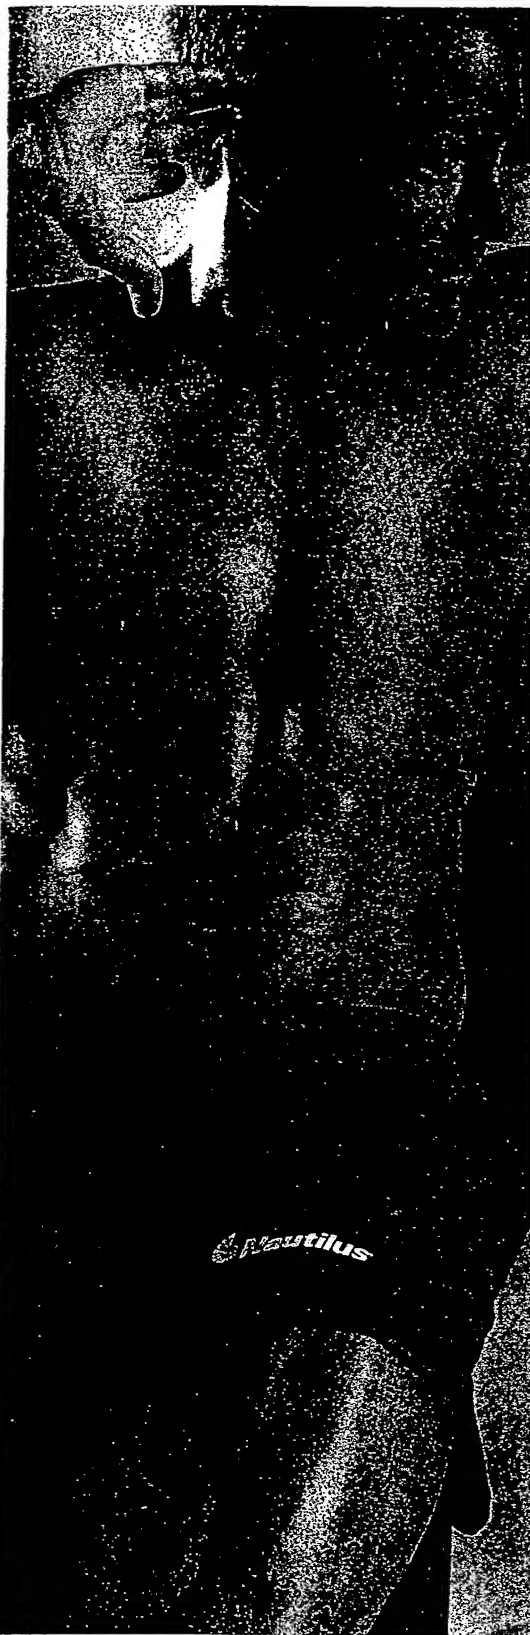

As we age, we begin losing muscle, that's why it's so hard to stay fit. Unless you are doing regular strength training, you will

lose up to a half pound of muscle every year after age 25. This gradual decrease in lean muscle mass means that non-training adults will experience a half percent reduction in metabolic rate each year. Why should you care? Simple: Muscle acts as your body's "fat burners."

Strength training is the secret to losing fat, toning your muscles and increasing your energy.

Strength Training for Weight Loss?

Most people think only of cardio-type exercises – running, rowing, elliptical or stairclimbing – when they want to lose weight. Of course, aerobic activities like these are absolutely necessary if you want to burn fat and drop pounds. But don't overlook another important key to weight loss: strength training.

It's simple: the more muscle you have on your body, the higher your metabolism, and the more calories you burn. In fact, one pound of muscle burns up to 350 calories per week! The more muscles you add, the more calories and fat you burn. What an awesome boost for any workout!

Make sure some element of strength training is always part of your overall workout routine. You'll increase your body's natural fat-burning ability while you shape and sculpt your body for a look you'll love.

ORDER NOW

1-800-436-9892

Discover why *Fitness Magazine* rated Bowflex® the best home gym.

Twenty minutes three times a week, gets you the kind of results people notice.

Toned muscles plus a notch tighter on the belt or a dress size smaller are results worth noticing. No matter what your fitness goals are, Bowflex will help you shape your body – within six weeks, guaranteed. Lose weight, slim and tone problem areas, improve strength and gain muscle where you want it. It's all within your reach with the Bowflex home gym.

Innovative design makes your workout quick, easy and effective.

You'll love the convenience and performance of working out at home with Bowflex. It's one of the quickest ways to experience a total body workout with both strength and cardiovascular benefits. Faster, more effective workouts are possible with Bowflex because its easy-to-use cable pulley and Power Rod®

systems keep transition time between exercises to a minimum. This is the key to circuit training – maintaining your heart rate for maximum fat-burning results.

Bowflex is your ideal training partner for results.

Bowflex's unique Power Rod® system makes exercise movements more fluid than using free weights. Hook up one or more Power Rods to the cable pulley system and go from as little as 5-lbs. all the way to 410-lbs. of resistance. The result is an intense, high-quality workout that will make you wonder why you ever spent time changing weights on a bar. Plus – Power Rods are so strong, you can flex them repeatedly and they'll never wear out. In fact, they have a No-Time-Limit Warranty.*

What's more, Bowflex is an attractive, quiet and space-saving home gym. It's a perfect fit for any room, allowing you to work out where and when you want. Check out the versatile Bowflex options in the next few pages — and don't miss the comments from real customers on page 39.

Proudly Designed and Engineered in the U.S.A.

100% SATISFACTION GUARANTEED Your satisfaction is guaranteed. The unique Bowflex Power Rod® system is precisely manufactured under the highest quality control measures. Each individual rod is sheathed and then put through three different tests to ensure quality and durability. Bowflex is a superior product and we stand behind it. Just purchase your Bowflex home gym and workout for up to six weeks. If you're not 100% satisfied with the quality of results then return it, including any accessories, in its original condition and packaging, and receive a full refund less shipping and handling. See order form for details.

* No-Time-Limit Warranty

Power Rods® are so strong, you can flex them repeatedly but you can't wear them out. In fact, they're so strong they have a No-Time-Limit Warranty. If you can wear them out, WE'LL REPLACE THEM FREE.

You can sculpt the ultimate body!

Bowflex® Ultimate™ XTLU

Build more muscle, have the versatility of more exercises and get results.

- 310-lbs. of Power Rod® resistance comes standard— more than any other Bowflex!
- Built-in adjustable pulley system to really pump your upper body
- Over 90 gym-quality exercises on one machine

Bowflex Ultimate XTLU gives you everything you need to do over 90 exercises, including strength training and cardiovascular workouts. The integrated lat tower builds back and shoulder muscles, while the leg extension/leg curl station develops stronger, more muscular legs. The built-in adjustable pulley system expands from 22" to 37" wide, for better bench press and fly exercises. Also includes a low pulley/squat station to help you work more of your muscles in different ways. With a standard 310-lbs. of Power Rod resistance, Bowflex Ultimate XTLU guarantees you'll always have challenging workouts. 10-year warranty, plus a No-Time-Limit Power Rod warranty. Folded footprint size is just 48" x 27-1/4".

Slim down your torso while you build your abdominals and back muscles. Smooth resistance and padded thigh pads keep you comfortable while you strengthen your core. Easily adjustable oval foot plate fits any size user. 51"L x 41"W x 44"H. AS050 \$379.99 (\$70)

Core Body Conditioning: Back and Ab Strength Create a Beautiful Body

A lifetime of good health and great shape is based on strengthening your core muscle groups: your abs and back. A solid core conditioning program will rev up your weight loss and fitness program, and you will quickly see results and be motivated to add new exercises into your core routine.

Core strength is easier than it seems.

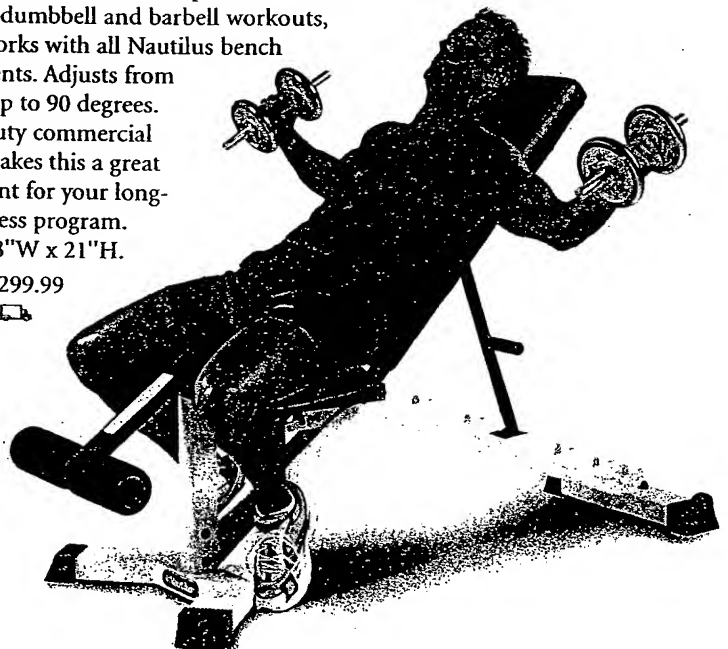

You don't have to do 500 sit-ups a day to get six-pack abs and a sculpted torso! Strengthen your entire core safely and effectively with a variety of exercises that reinforce abs, obliques (waist), upper back, lower back and glutes (buttocks). And reduce your body fat with a good resistance training program. When you develop your body's core, your performance in other areas of life may be enhanced, from deskwork to weekend warrior sports, to your sex life. And when stress hits, your strong core will thwart muscle injury and dissipate tension instead of the usual response of tightened shoulders that pull your lower back out of whack.

Adjustable Fitness Bench

A versatile bench you'll use every day.

If you have space for just one workout bench, this adjustable workhorse is the perfect choice. Ideal for dumbbell and barbell workouts, plus it works with all Nautilus bench attachments. Adjusts from decline up to 90 degrees. Heavy-duty commercial design makes this a great investment for your long-term fitness program. 60"L x 28"W x 21"H.

AS005 \$299.99
(\$84.99) 

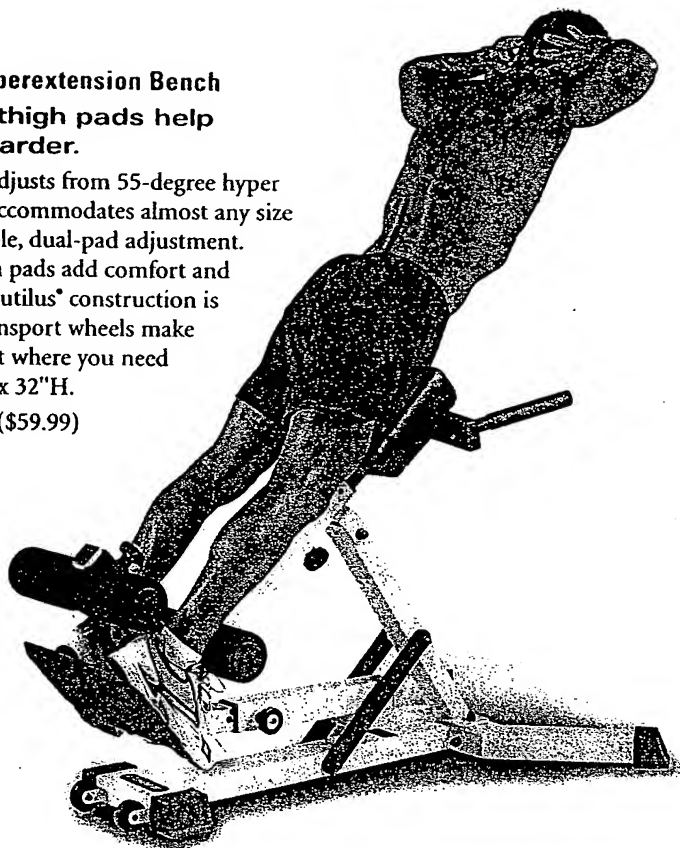

Adjustable Hyperextension Bench

Contoured thigh pads help you work harder.

Unique design adjusts from 55-degree hyper to parallel and accommodates almost any size user with a simple, dual-pad adjustment. Contoured thigh pads add comfort and safety. Tough Nautilus® construction is sturdy, while transport wheels make it easy to move it where you need it. 48"L x 33"W x 32"H.

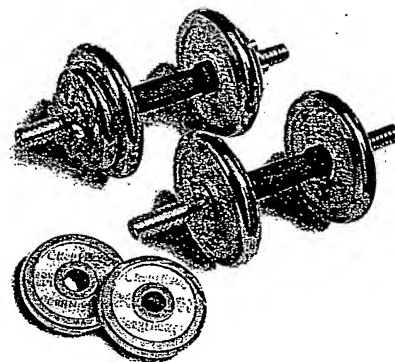

AS007 \$299.99 (\$59.99)

Chrome 40-lb. Dumbbell Set

Low-weight, high-rep workout – to go!

Nautilus commercial-quality free weight dumbbells add a versatile option to your workout. Set includes two spin-lock bars, four collars, four 2.5-lb. plates and four 5-lb. plates. AS061 \$59.99 (\$31)

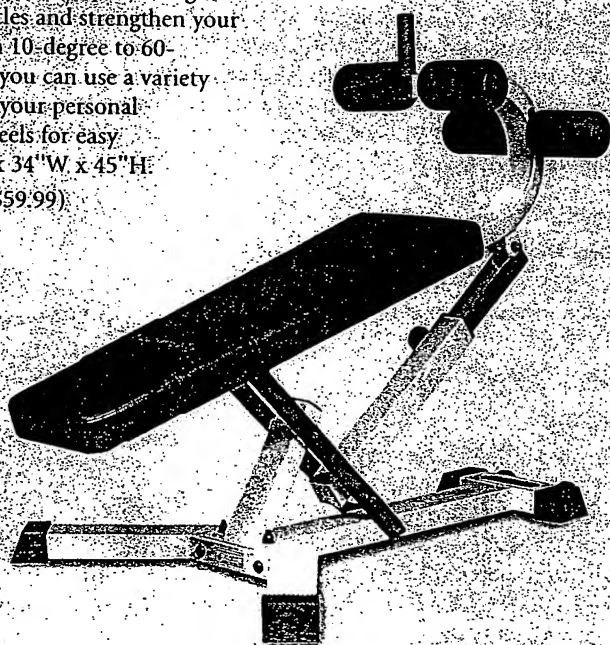

Adjustable Ab Bench

Work on those washboard abs.

Adjustable Ab Bench is the perfect way to focus on your middle. Uniquely designed to tighten your muscles and strengthen your core. Adjusts from 10-degree to 60-degree incline, so you can use a variety of angles to work your personal trouble spots. Wheels for easy movement. 56"L x 34"W x 45"H.

AS004 \$299.99 (\$59.99)

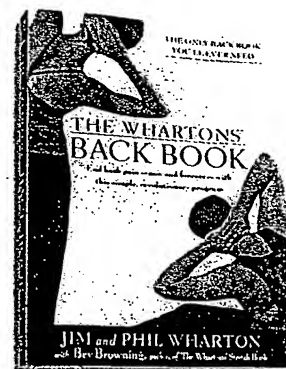

The Whartons' Back Book

Stretch and strengthen your way to a healthy back.

Comprehensive and entertaining guide shows you how to keep your back strong with simple-yet-effective advice and exercises for your busy, athletic lifestyle. Father-and-son training team Jim and Phil Wharton (physical therapists for Olympic medalists and Hollywood stars) help you avoid injury and get relief from back troubles caused by anything from extra pounds to sports, stress, and more.

for details.

Nautilus® Cage

Create your dream gym at home.

Professional-quality cage is the perfect start to your home free weight station. The Nautilus Cage's wide 2' x 4' base provides excellent stability at all times, while the bars and safety spotters adjust quickly and easily. Multiple weight holders provide convenient stacking. Use it alone or add hardworking attachments (below). 68"L x 64"W x 80"H.

AS036 \$749.99 (\$84.99) 

Smith Attachment

Add the Smith Attachment to your Nautilus Cage, and you'll add more strength training options – and more safety. Perform just about any free-weight-style exercise – including presses, squats and curls – with the bar safely locked into a track. Linear bearings and solid steel guide rods allow for smooth, fluid motion, without the need to balance like with free weights. Bar accommodates both Olympic and standard weight plates. 68"L x 81"W x 80"H.

AS052 \$479.99 (\$84.99) 

Pec Attachment

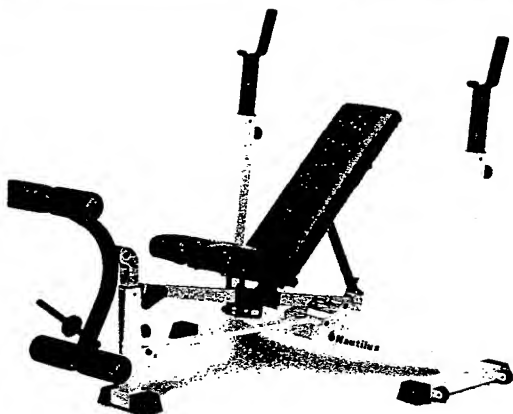

This simple cage addition is a quick and easy way to add serious work on your pecs and rear deltoids. Guide rod system feels smooth and easy. 68"L x 64"W x 83"H.

#AS043 \$269.99 (\$84.99) 

Lat Attachment

Concentrating on sculpting your strong back? Nautilus Lat Attachment adds both a high and low pulley workout, with a guide rod system for super-smooth operation. Accommodates a 200-lb. weight stack. Includes low row foot plate for important pre-stretch. 68"L x 64"W x 83"H.

AS034 \$319.99 (\$84.99) 

International Fold-Up Bench

Maximum workout, minimum space.

International Fold-Up Bench quickly adjusts from decline to military with a simple pull pin adjustment. Rolled seat provides excellent pivot positioning during leg work. Extremely sturdy frame features dual wheels so you can move it out of the way between workouts. 77"L x 54"W x 65"H.

AS031 \$399.99 (\$84.99) 

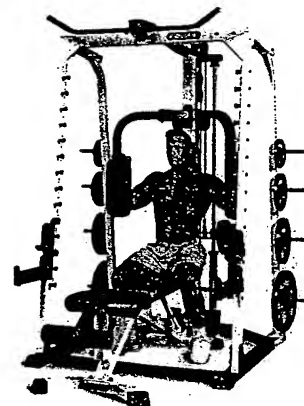

Chrome Weight Set

Add some heavyweight flash to your routine.

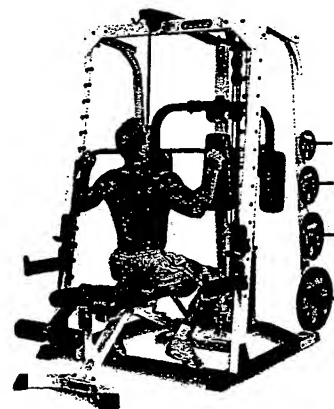

Great-looking chrome weight plates are just like the weight plates used at gyms in your town and around the world. Quality cast iron construction plated with shiny chrome – makes a real statement! Complete 55-lb. set includes four 10-lb., two 5-lb., and two 2.5-lb. plates.

AS016 \$68.99 (\$31)

Smith and Pec Attachments give you even more workout options.

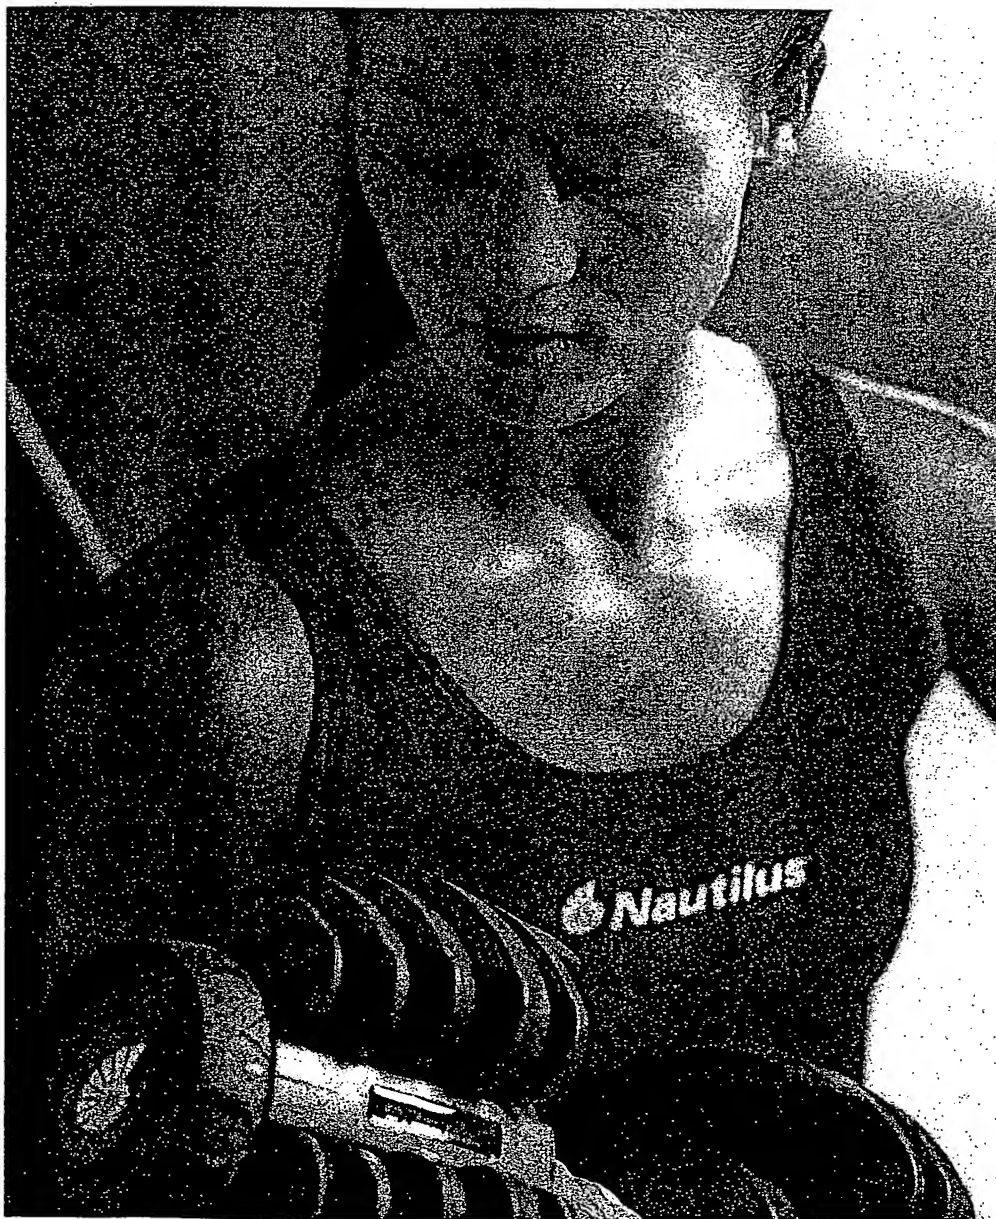

Lat Attachment includes both low and high pulleys.

Introducing Nautilus® SelectTech™ Dumbbells: the high-tech future of strength training is here.

**Sleek and innovative, SelectTech™ dumbbells
propel you to exceed your fitness goals.**

The unique design and weight range of SelectTech Dumbbells make them ideal for anyone – beginner to power lifter. They're compact, easier to use, and affordable. And, since they're designed by Nautilus, you know they're going to give you a strength workout better than any other. From 5 to 52.5-lbs. in 15 increments.

SelectTech™ Dumbbells

**Get all the benefits of 15
separate pairs of dumbbells
in one easy-to-use set.**

A patent-pending locking mechanism allows you to dial-in the weight you want and the correct weight plates are securely and safely locked into position – automatically. The cutting edge design features a sleek look that comes from the unique injection-molded plastic cover. In addition to adding style, the plastic cover means SelectTech Dumbbells won't clank and clatter when they are set down, and won't scratch floors or other surfaces. And no matter how sweaty the workout gets, the Nautilus SelectTech is protected from corrosive rust. (Stand sold separately.) Get a full weight set in the space of two ordinary dumbbells. Get Nautilus SelectTech.

AS051 \$12.99

Nautilus® Sleep Systems for the athlete in you.

Great Health Begins with Great Sleep

No matter how committed you are to a workout routine that includes cardio, strength and flexibility training, in order to be truly fit and healthy, make sure you're getting the rest your body needs.

Coaches and elite athletes know how adequate rest improves the health of your muscles and body overall. It also affects your well-being, moods, behavior, energy level, memory, ability to fight colds and other disease – in effect, your happiness. After an active day exercising or playing sports, better sleep – not necessarily more sleep – is the key to real fitness.

**It took the fitness experts
at Nautilus® to design a mattress
especially for the active body.**

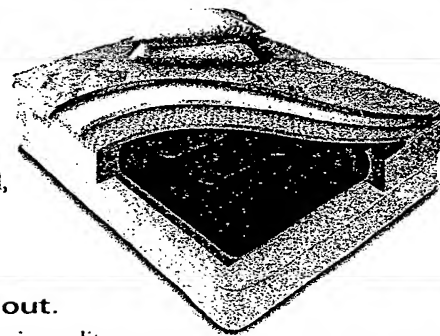

If you spend your days getting in shape, shouldn't your nights support your healthy lifestyle, too? Nautilus® guarantees you can wake up feeling refreshed, alive, and ready for anything every morning, with the scientifically-developed Ultimate Series Mattress from Nautilus® Sleep Systems.

Designed for comfort, from the inside out.

Nautilus® Sleep Systems' revolutionary design combines six quality bedding products into a superior sleeping surface, an adjustable comfort-enhancing core and a sturdy support structure. The result is one amazing mattress that's guaranteed to let your muscles and joints really rest, so you get the best sleep you've ever had.

Made for your body's shape.

The heart of Nautilus® Sleep Systems is the combination of adjustable interlocking air mattress plus a foam comfort layer that molds itself to your own body's shape and weight. You'll get relief from uncomfortable pressure points, and feel cradled in soft support.

You'll feel the difference in just one night.

Nautilus® Sleep Systems has unlocked the science of comfort, no matter how hard you work your muscles. The luxurious solution gives you deeply restful nights and more productive days. Endorsed by the Congress of Chiropractic State Associations, this amazing combination of cushioning and adjustable support is truly revolutionary.

Removable, cleanable pillow-tops make a better bed.

Change your pillow-top to suit your comfort level or the changing seasons. The Ultimate Series comes with a wool pillow-top for warmth on chilly evenings, plus a silk pillow-top for a cooler, more breathable sleeping surface in warmer weather. An optional ultra-cozy cashmere-blend pillow-top is also available. All are dry-cleanable to remove allergy-inducing particles.

Plush foam layer reduces tossing and turning.

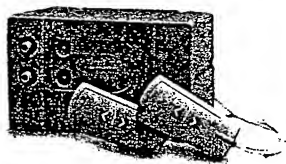

Made from the material originally developed by NASA to keep astronauts comfortable on long space missions, the thick visco-elastic foam layer molds itself to your body to evenly distribute your weight and improve circulation – critical for building muscle tissue and endurance.

Custom support for your body and your partner's.

Nautilus® Sleep Systems feature exclusive dual interlocking air chambers. Each sleeper simply touches a button to adjust the firmness of their side of the bed – without affecting the other side at all. You both get custom support! And special contour-cut rails hold their rigid shape, even when you sit on the edge of the bed.

Complete control is at your – and your partner's – fingertips.

Convenient remote controls let you silently adjust the firmness on your side of the bed, so you're always comfortable. Two sleepers, with different height, weight and sleeping positions? No problem – you'll both get the rest you need, without disturbing the other. For nighttime convenience, controller sleeves mount on your wall or nightstand to keep your remote within easy reach.

HOW LACK OF SLEEP AFFECTS US

A National Sleep Foundation survey shows 37% of adults report a level of daytime drowsiness that interferes with daily activities. Of that 37%:

- 30% report sleepiness interferes with job performance
- 25% say it interferes with their family duties
- 28% say it interferes with their social lives
- 29% say it interferes with family/friend relationships
- 37% say it interferes with leisure/recreation activities

Nautilus Foundation

Far from being a "simple" bed, Nautilus® Sleep Systems are the only beds designed and engineered for active people, giving you balanced, uniform support over your entire body. You'll sleep deeper and more soundly from the very first night!

"For the first time in our lives – and we've been married 30 years – she can have her side of the bed the way she wants it and I can have my side of the bed the way I want it."

— Chuck Borgia
Gates, OR

"Compared to a coil spring mattress, Nautilus Sleep Systems is wonderful. It makes a huge difference in the amount of sleep you get, the quality of sleep you get and the amount of rest you get."

— Carrie Wolfe
Dixon, MO

ORDER NOW

1-800-436-9892

Nautilus® knows how to give you the rest you need.

You worked your body hard today — you deserve the ultimate night's sleep!

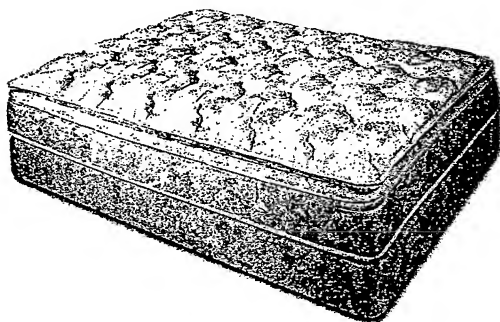

Nautilus Sleep Systems offers a healthy bed like no other — The Ultimate Series. From the moment you lie down, your muscles will feel cushioned by the pillow-top and cradled by the memory-foam. Want the bed a little softer? Simply push a button and the exclusive, patent-pending interlocking support chambers silently add or release air, adjusting to your desired comfort level.

Cradle your tired body in thick support.

The adjustable air chambers are topped by a 1-1/2" thick layer of visco-elastic foam plus an additional 1-1/2" layer of convoluted foam. Comes with two removable pillow-tops — wool blend for cooler-weather months and silk blend for warm-weather sleeping — which can be removed completely for an extra-firm top. Surrounded by premium quality Belgian damask ticking.

Comfort for two.

The Ultimate Series features a dual internal comfort control system featuring two direct-connect programmable controllers with convenient remote holders.

Human Touch Technology® Massage Chair

Pamper your body and dissolve tension with the chair that's better than a personal massage therapist.

The remarkable Human Touch Technology® Massage Chair gives a massage so real, so therapeutic, it's even *better* than going to a massage therapist. Why? Because it's in your own home, always ready, so your sore muscles can enjoy soothing personal attention any time, day or night.

The first massage chair endorsed by chiropractors.

The most advanced massage chair ever made, the HTT Massage Chair uses a patent-pending mechanism that works like "wrists, arms and hands" to knead away tension, stress and

overexertion. The unique curve track follows the natural s-curve contour of your spine so you get an especially effective massage in the cervical (neck) and lumbar (lower back) regions. The HTT Massage Chair applies techniques used by massage therapists and chiropractors: compression, rolling, kneading and percussion. You'll especially love the rotating calf and foot massage built in to the footrest – *aaaahhhhh*... what an amazing feeling after a long run or grueling fitness

workout! Variable speeds and range control give you dozens of possible combinations. Or, choose from two pre-programmed 15-minute massage sessions. Includes power recline and adjustable shoulder height from normal to tall. More than just a piece of furniture, the HTT Massage Chair lets you sit, swivel, recline, read or watch TV, while your tension melts away. 66"L x 28"W x 34"H.

It's official: home exercise equipment increases weight loss.

A recent Brown University study of home exercise equipment shows that women with equipment in their home lose twice as much weight as those without exercise equipment at home.* Surprising? Not to us at Nautilus. We've known the truth for a long time: Home exercise equipment works!

What's the secret? In short, convenience. In other words, when your gym's at home – you'll use it. Throughout this catalog, we

offer you plenty of options to fit your fitness goals, your space and your wallet.

Choose the innovative new Nautilus TreadClimber on pages 4-7 for the best-ever, fat-blasting, calorie-burning workout you've ever tried. Or, choose from our selection of high performance indoor cycles from Nautilus or Schwinn (pages 8-11). Want to focus on strength training? Bowflex (page 36-41) can't be beat! And Nautilus Strength

Systems (pages 30-35) offer flexibility to meet your changing needs.

Whatever your goals, we'll help you reach them. Call our fitness advisors at 1-800-436-9892 and we'll help you choose the right home equipment for you.

* The Journal of the American Medical Association, October 27, 1999.

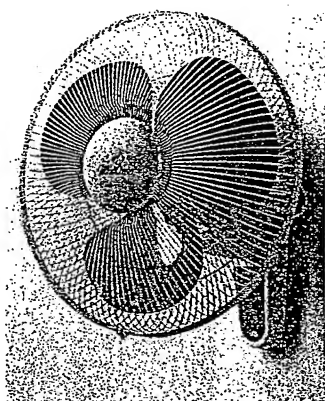

Outfit your home gym for better workouts.

Remote-Control Wall/Ceiling Fan

Make your workouts a breeze!
